Past performance is not indicative of future returns.

INVESTMENT STRATEGY

Lakehouse Capital's strategy for the Fund is to invest in a high conviction portfolio of 15 to 30 small companies listed in Australia and New Zealand. The investible universe consists of companies outside the S&P/ASX 100, though the Fund may continue to hold companies that grow into the ASX 100 as letting winners run is part of the Fund's long-term strategy.

Our stringent investment process leads us to invest in companies that present the following characteristics:

- Strong positions in growing markets.
- Pricing power with customers and suppliers.
- Durable competitive advantages grounded in: scale, strong brands, network effects, or high customer switching costs.
- Aligned and experienced management teams with strong track records of capital allocation.
- Conservative balance sheets.
- Attractive valuations.

PERFORMANCE REVIEW

The Fund returned -12.2% net of fees and expenses during the month compared to a -13.1% return for the benchmark. Since inception in mid-November 2016, the Fund has returned 7.6% p.a. compared to 5.5% p.a. for the benchmark. The Fund's most significant contributor to performance during the month was **Audinate (+13.7%)**, which provided a trading update, signaling a continued improvement in trading conditions. The recent investor day also laid out the foundation for the company's future growth prospects. The largest detractor was **Tyro (-43.4)**, which fell after the announcement of the CEO stepping down. During the year Covid lockdowns severely impacted business, customers were dissatisfied due to the recent terminal outage and increased cost pressures.

FUND COMMENTARY

The sector-level portfolio breakdown provides further context on the Fund's strategy relative to the broader market for small companies. The Fund's largest sector allocations are to information technology (43.8% of total capital), financials (19.5%), and healthcare (13.5%) while the benchmark's largest allocations are to materials (22%), real estate (15.4%), and consumer discretionary (12.9%).

The Fund embraces a differentiated approach with an emphasis on capital-light, recurring-revenue-centric business models and a bias away from cyclical, capital-intensive businesses. As a result, the Fund tends to be overweight IT and underweight materials, energy, utilities, and real estate.
